3.0 PREPARATIONS FOR USE

The unit is shipped fully assembled, and only the following steps are required to make it operational

NOTE: Apply appropriate fluid label to top of reservoir near fill opening.

CAUTION!

Only use the type of fluid for which the unit is designed. Using other fluids will cause contamination and seal deterioration.

1. Remove the fill cap and fill reservoir

4.0 TRAINING

4.1 TRAINING REQUIREMENTS

The employer of the operator is responsible for providing a training program sufficient for the safe operation of the unit.

4.2 TRAINING PROGRAM

The employer provided operator training program should cover safety procedures concerning use of the unit in and around the intended aircraft at the intended aircraft servicing location.

4.3 OPERATOR TRAINING

The operator training should provide the required training for safe operation of the unit.

NOTE: Maintenance and Trouble Shooting are to be performed by a skilled and trained technician.

5.0 OPERATING INSTRUCTIONS

CAUTION!

Do not use this unit on closed hydraulic systems.

To use your Fluid Service Unit, follow the steps below:

1. Open ball valve on hose end to deflate pressure from vessel.
2. Close ball valve on hose end.
3. Fill vessel with proper hydraulic fluid.
4. Attach air supply hose to air valve.
5. Pressurize vessel to 85 psig (6 bar) maximum and remove air supply hose from air valve.
6. Transfer hydraulic fluid by opening needle valve on hose end.

6.0 MAINTENANCE

6.1 FILTER

The filter is of a non-bypass design. This means that if the filter becomes clogged, no fluid will pass to the aircraft. If this happens, replace filter element.

Element replacement schedule should be based on usage and actual fluid samples. For units with low usage, element should be changed at least once annually.

7.0 PROVISION OF SPARES

7.1 SOURCE OF SPARE PARTS

Spare parts may be obtained from the manufacturer:

TRONAIR, Inc.
1 Air Cargo Pkwy East
Swanton, Ohio 43558 USA

Telephone: (419) 866-6301 or 800-426-6301
Fax: (419) 867-0634
E-mail: sales@tronair.com
Website: www.tronair.com

For Spare Parts, Operations & Service Manuals or Service Needs:
Scan the QR code or visit Tronair.com/aftermarket

7.2 RECOMMENDED SPARE PARTS LISTS

Reference the following page(s) for Replacement Parts and Kits available.

8.0 IN SERVICE SUPPORT

Contact Tronair, Inc. for technical services and information. See Section 1.3 – Manufacturer.

9.0 GUARANTEES/LIMITATION OF LIABILITY

Tronair products are warranted to be free of manufacturing or material defects for a period of one year after shipment to the original customer. This is solely limited to the repair or replacement of defective components. This warranty does not cover the following items:

- a) Parts required for normal maintenance
- b) Parts covered by a component manufacturers warranty
- c) Replacement parts have a 90-day warranty from date of shipment

If you have a problem that may require service, contact Tronair immediately. Do not attempt to repair or disassemble a product without first contacting Tronair, any action may affect warranty coverage. When you contact Tronair be prepared to provide the following information:

- a) Product Model Number
- b) Product Serial Number
- c) Description of the problem

If warranty coverage is approved, either replacement parts will be sent or the product will have to be returned to Tronair for repairs. If the product is to be returned, a Return Material Authorization (RMA) number will be issued for reference purposes on any shipping documents. Failure to obtain a RMA in advance of returning an item will result in a service fee. A decision on the extent of warranty coverage on returned products is reserved pending inspection at Tronair. Any shipments to Tronair must be shipped freight prepaid. Freight costs on shipments to customers will be paid by Tronair on any warranty claims only. Any unauthorized modification of the Tronair products or use of the Tronair products in violation of cautions and warnings in any manual (including updates) or safety bulletins published or delivered by Tronair will immediately void any warranty, express or implied.

The obligations of Tronair expressly stated herein are in lieu of all other warranties or conditions expressed or implied. **Any unauthorized modification of the Tronair products or use of the Tronair products in violations of cautions and warnings in any manual (including updates) or safety bulletins published or delivered by Tronair will immediately void any warranty, express or implied and Tronair disclaims any and all liability for injury (WITHOUT LIMITATION and including DEATH), loss or damage arising from or relating to such misuse.**

10.0 APPENDICES

- APPENDIX I Instrument Certification Notice
- APPENDIX II Declaration of Conformity

Parts List - 06-5009-6500

When ordering replacement parts/kits, please specify model, serial number and color of your unit.

Item	Part Number	Description	Qty
1	V-1431	Tag, Flush System	1
2	N-2210-02-S	Pipe Thread Reducer	2
3	HC-1831	Certified Pressure Gauge (0–160 psi/11 bar)	1
4	H-1221	Valve, Air	1
5	PC-1017-02-125	Safety Valve (125 psi/9 bar)	1
6	V-1163	Label, Max Fluid Level	1
7	V-1002	Label, Tronair	1
8	V-1164	Label, 85 psi Max	1
9	TF-1047-01*180	Push-on Hose (15 ft/4.6 m)	1
11	Z-2152	Assembly, Fill Valve	1
12	N-2007-05-S-B	Straight Thread Connector	1

APPENDIX I

Instrument Certification Notice

Instrument Certification Notice

The gauge Certificates of Calibration supplied for the gauge(s) on this unit contain the calibration data for the actual instrument calibrated, along with the calibration date of the **STANDARD** used to perform the calibration check.

The due date for re-calibration of the instrument should be based upon the date the instrument was placed in service in your facility. Re-calibration should be done on a periodic basis as dictated by the end user's quality system or other overriding requirements.

Note that Tronair, Inc. does not supply certificates of calibration on flow meters or pyrometers unless requested at the time of placed order. These instruments are considered reference indicators only and are not critical to the test(s) being performed on the aircraft.

APPENDIX II

Declaration of Conformity

EU Declaration of Conformity

Model Number(s) 06-5009C6500, 06-5009C6600
06-5009C6600-A1, 06-5009C6800

Product Type/Name: Fluid Service Unit

Serial Number(s): [Click or tap here to enter serial number\(s\)](#)

Declaration: Tronair has assessed the equipment described above against the Essential Health and Safety Requirements of one or more Directives. Based on this assessment, the equipment described above is deemed to comply with the directive(s) listed below.

This declaration of conformity is issued under the sole responsibility of the manufacturer.

Directives: Pressure Equipment Directive 2014/68/EU

Standards: DIN EN 1915-1 – Aircraft Ground Support Equipment – General Requirements – Part 1: Basic Safety Requirements 2021-02

DIN EN ISO 4413 Hydraulic Fluid Power – General Rules and Safety Requirements 2010-11

DIN EN ISO 4414 Pneumatic Fluid Power – General Rules and Safety Requirements 2010-11

Markings:

The technical documentation for the machinery is available from:

Mr. Joel Nunn
